Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to avoid penaltizing those consumers who are conservative in their use of the resources available. Do not force the small consumer to pay the same tax rate as the large consumers. In actuality you should be rewarding the consumers who conserve energy no matter what the method.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

Thank you, and best of luck in your new position.
